DETAILED ACTION

This application is a 371 of PCT/US99/25433 International Filing Date: 10/29/1999 which claims priority from Provisional Application 60106133.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

- 1) Group I, claim(s) 1 drawn to a method for preventing preterm labor in a pregnant subject comprising administering thiazolidinedion to the subject.
- 2) Group II, claim(s) 2-19 drawn to a method for reducing an oxytocin-mediated action in a subject comprising administering thiazolidinedion to the subject.
- 3) Group III, claim(s) 20-21 drawn to a method of screening for an oxytocin agonist comprising administering a troglitazone-like compound to an oxytocin receptor and determining whether the compound binds the receptor.

According to 37 CFR 1.475 (c), if an application contains claims to more or less than one of the combinations of categories of invention set forth in paragraph (b) of this section, unity of invention might not be present.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the inventions of Group I-III are drawn to different and separate methods with different

Art Unit: 1617

functions, which relate to a separate field of medical technology. Thus, a single general inventive concept is not seen to be present.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Because the above restriction/election requirement is complex, a telephone call to applicant's agent to request an oral election was not made. See M.P.E.P Sec. 812.01.

In view of the rejections to the pending claims set forth above, no claims are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Jiang, whose telephone number is (703) 305-1008. The examiner can normally be reached on Monday-Friday from 9:00 to 5:00.
